# Netwrix StealthINTERCEPT

## Prevent threats from becoming breaches in real time

Promptly identify authentication-based and file system threats, abuse of privileged accounts and critical changes to your IT environment. Deploy preventative controls to lock down your most critical assets before weaknesses can be exploited and your organization lands in the headlines.

**SPOT THREATS EARLY**

Identify security risks before they lead to security incidents, such as abuse of privileged accounts and critical changes to your IT environment.

**BLOCK CRITICAL IT RISKS**

Proactively prevent any changes to your most critical AD objects, files, mailboxes and more, locking out would-be attackers.

**SAVE TIME ON COMPLIANCE AND REPORTING**

Streamline report compilation and audit preparation. Stop wasting hours poring over raw data and answer ad hoc questions in minutes.

**CUSTOMER FEEDBACK**

"Great platform to improve security and data governance."

Director of Infrastructure & Security in the Finance Industry

Monitor and prevent threats in real-time

# Key Features of Netwrix StealthINTERCEPT

## HOW IS NETWRIX STEALTHINTERCEPT DIFFERENT?

### UNCOVER RISKY ACTIVITY IN ACTIVE DIRECTORY

Tired of digging through scattered, incomplete and cryptic native logs? Capture crucial events in your AD and take advantage of centralized event storage, search and analytics to promptly spot unauthorized changes or access.

### CATCH SUSPICIOUS AUTHENTICATION EVENTS

Detect the use of weak encryption or protocols and other suspicious authentication activity in real time to catch malicious actors and applications before they compromise your security.

### EFFECTIVE

Netwrix StealthINTERCEPT doesn't rely on native logs. Instead, it collects event details at the source, to deliver better data faster and more efficiently.

### BLOCK THE RISKIEST ACTIVITY

Slam the door shut on bad actors by proactively blocking suspicious access to sensitive data and critical AD objects, including vital Group Policy objects (GPOs) and highly privileged security groups.

### GET ALERTED TO THREATS

Know right away about activity that might put your organization's security at risk. Easily set up alerts using flexible parameters and be notified about critical events in real time.

### COMPREHENSIVE

Noisy, incomplete and cryptic native logs are no match for modern threats. Netwrix StealthINTERCEPT delivers the comprehensive, consolidated intelligence required to proactively spot and respond to risky activity before you suffer a breach.

### ACCELERATE INVESTIGATIONS AND HARDEN SECURITY

Easily analyze detailed event information in context, and use this actionable information to both address the situation at hand and remediate gaps in your security posture.

### SIMPLIFY COMPLIANCE

Slash the time spent on audit preparation by automating the generation of a wide variety of compliance reports aligned with industry and regulatory standards.

### SECURE

Netwrix StealthINTERCEPT makes it easy to ensure that only the right people have the right level of access to platform capabilities and data, including administrators, auditors and other appropriate users.
